

**1** Make sense of problems and persevere in solving them

I can solve problems without giving up

**2** Reason abstractly and quantitatively

I can think about numbers in many ways

**3** Construct viable arguments and critique the reasoning of others

I can explain my reasoning and try to understand others

**4** Model with mathematics

I can show my work in many ways

**8**

Mathematical Practices

**5** Use appropriate tools strategically

I can use math tools and explain why I used them

**6** Attend to precision

I can work carefully and check my work

**7** Look for and make use of structure

I can use the structure of a problem to find an answer

**8** Look for and express regularity in repeated reasoning

I can solve problems by looking for patterns
